PROVISION OF A BACK-UP SERVER FOR THE E-PERMITTING SYSTEM

E-permitting

COMPLETED

Improvement of the electronic system for the issuance of building permits through the provision of a back-up server, which will enhance its stability and availability for over 6,500 users that benefit from it every day. Server and network equipment were procured through the project, as well as necessary licences. The aim of this activity was to contribute to the creation of a more favourable business environment by improving the efficiency and transparency of the e-government and, ultimately, to new investments. At the same time, citizens' trust in institutions, as well as the quality of services that are being offered through the e-government will also be enhanced.

REPLACEMENT OF ASBESTOS PIPES IN KURŠUMLIJA WATER SUPPLY SYSTEM

Local Infrastructure

COMPLETED

The replacement of 1,230 metres of asbestos pipes in the section of the water supply system with ecologically adequate materials will improve the quality of water, reduce malfunctions and water losses and enhance the overall health of the people, including 3,600 inhabitants of the settlements Rasadnik 1 and Rasadnik 2, the kindergarten and the "Miloje Zakić" Primary School with over 750 pupils and teachers, all connected to this part of the system. The good governance activities will be focused on raising public awareness of the necessity for rational use of water and prevention of water pollution.
